The Hon. J. Hal Woodford, the well-known breeder of this county, has been appointed by President Francis as a member of the international jury of awards in the department of live stock of the Louisiana Purchase Exposition. Mr. Woodford reported for duty at St. Louis yesterday.

Big Payroll.

The contractors working on Main street paid off on square in front of THE NEWS office Saturday afternoon and it was quite an interesting sight to see the colored laborers opening their envelopes. Saturday's payroll amounted to over \$1,700. A nice little sum to put into circulation.

Fell From Ladder.

Hatton Morris, the colored porter at the Windsor Hotel, was washing windows, Saturday afternoon, from the top of a very high step-ladder, when he lost his balance and fell heavily to the hard tiling floor of the hotel office. It was thought he was fatally hurt for several hours afterwards, but he finally came around all right.

Shooting Affray.

At Centerville, yesterday, Jim Ryles and Wakeman Moore became involved in a difficulty when Ryles shot Moore twice, the shots taking effect one in each leg, the bone of the right leg being shattered. Ryles surrendered himself to Squire Barlow, who placed him under bond for appearance as soon as Moore is able to attend court. The difficulty occurred near the public school building.

The Banns of Matrimony.

The banns of matrimony of Miss Mattie Ray Glenn, of near town, and Mr. James W. O'Connell, of Millersburg, was announced by Father E. A. Burke at the Catholic Church, Sunday morning. Miss Glenn is the lovely daughter of Mr. and Mrs. Mike Glenn, and Mr. O'Connell is a popular young business man of our neighboring town. The wedding will take place Oct. 19th, at the Catholic Church.

New Candidates.

In this issue we announce Mr. A. J. Skillman, of Little Rock, as a candidate for Assessor of Bourbon county, with R. O. Turner, of Ruddles Mills, as his deputy. Mr. Skillman is one of our best known farmers, fully qualified in every way for the office and will make a strong candidate. His deputy, Mr. Turner, possesses the qualifications, is popular, and adds strength to the ticket. Mr. Geo. W. Redmon is announced in this issue as a candidate for magistrate of the Little Rock precinct. Mr. Redmon is one of our most substantial farmers, equipped in every way for the office to which he aspires, and if elected the interests of Bourbon county will be in safe hands.

Interurban People Give Parisians the Hot End of It.

When it comes to accommodations on the Interurban, Paris people are at all times ignored and all of the accommodations go to Lexington. We are entitled to the same consideration as this old hog-hish town of Lexington and we are going to have it from this Interurban line or know why. Lexington is not the only people on the beach, nor is this mismanaged Interurban line.

Now, gentlemen, we will not say Mr. Manager, for we don't believe you have got one, we will give you a few facts. On Sunday you advertised you would carry people to the Y. M. I. ball park for 50 cents the round trip. Two hundred and four Parisians took advantage of these rates, or at least thought they were so doing. Two car loads had gone and when the crowd gathered for the 2 o'clock car several were informed by the company's representative that the tickets had run out, but get on the car and the conductor would furnish them. After about ninety had gotten on the car and the conductor began to collect the fares it was discovered that you had to pay 35 cents for one way. Several ladies got off the car about a mile and a half out on this account. Parties that we know who paid 35 cents for going out to the grounds were only charged 30 cents for return trip. Nice treatment to say the least. That's not the worst of it. After the game there were six cars standing at the gates to carry Lexington people home, two miles distance, and two hundred and four people from Paris, fifteen miles from home, had to wait on the road side from five o'clock until after six for their cars. This is not right and Paris people do not intend to be treated in this manner by you.

It is bum management pure and simple, or a direct insinuation that our people do not deserve the same accommodations as the Lexington people. Our money is just as good as Lexington money and we demand of you better treatment. Employ some good experienced railroad man to run your business and we are sure you will profit by it.

The Paris Fire Department.

It was again demonstrated at the fire of the colored United Brethren of Friendship's three-story building, on Eighth street, Friday morning, of the deplorable condition of our fire department, at one time the pride of Paris. There were three members, the full quota, present, and how they managed to save the building from complete destruction, was, indeed, remarkable. The water pressure was not sufficient to reach the second story, and not a ladder long enough to carry the hose to the second story. You remind the city fathers of this from time to time and you are given the laugh by some of the members of the august body called the City Council. One in particular, who owns a handsome residence on High street, which it has happened up to this time the fire fiend has never visited. Let this gentleman's house catch on fire and it burns to the ground for want of a ladder that was long enough to reach the second story, and we venture the assertion you would hear some loud talking about the d—n fire department, yes, you could even smell brimstone if you happened to be present. It is all right until somebody kicks your own dog, and then it is all wrong. The three members of the department are experts in their line and are world beaters, handicapped as they are by a City Council that takes no interest whatever in the fire department.

The Chairman of the Fire Committee, we understand, has attended one meeting of the Council since his election to that office. We still predict a big fire in Paris and when it comes the blame should rest where it belongs. Let the insurance companies make an investigation as matters now stand and rates will go higher than "cat's back." The tax payers will not kick on your spending more money on this department and it should be done before it is too late to save many dollars worth of property.

On yesterday morning, about 10:30 the department was called to the residence of Mr. W. L. Collins, on Seventh street, where a fire had considerable start on the roof of the house. After most excellent work by the three members of the department the house was saved, the loss being only several hundred dollars. It happened to be a one story house and the firemen could reach the roof by the little step ladder they carry. The wagon had to make a trip back to the engine house for enough hose to put on a second line.

Suggestion to the Building Committee.

If there is to be more money spent on the new court house we would like to make one suggestion to the Building Committee, and it is one we think by far of more importance than adding ornaments that will only be a benefit to the eye. By all means, gentlemen, have a change made in the front steps of this handsome new building, if you don't, the public should force you to. The steps are a disgrace to the building and not only an eyesore, but actually dangerous for old or young to go up and down. This change should be made at fall hazards and the architects attention should be called to the matter at once.

Blasting at City Quarry.

The blasting at the city quarry continued to become so dangerous to residents of that portion of the city, that we are informed the city officials notified the parties who are getting out the rock that if any more complaints were filed against them their contract would be revoked. Rocks have been falling on the houses and in the yards of citizens several squares from the quarry for some time, and up to Saturday no attention had been paid to this dangerous work. While the city was doing blasting we never heard of any complaints and we cannot see why the contractors now using the quarry cannot get rock out without endangering the lives of citizens.

A Small Strike.

About fifty of the shovelers working on Main street went out on a strike Saturday morning. The trouble seems to be on account of the contractors in making out their payroll in leaving Saturday's day's work off until the following week. It would be impossible for the contractors to make out their payroll, employing from 150 to 200 men, right up to the time they quit work on Saturday evening. The most of the strikers wanted to return to work, but were informed their services were not wanted in the future.

Buck's Hot Blast Heater.

A. F. Wheeler & Co. was busy all day Saturday in demonstrating to the public the advantages of the Buck Hot Blast Heater. It is the most wonderful heater ever put upon the market and you should call at the above firm's place of business, on corner of Main and Third street, and see for yourself. This stove will absolutely pay for itself in two to three seasons. There is absolutely no smoke, no gas, no soot; it is all burned up as fuel, and after the fire is started only a thin, colorless vapor goes out of the chimney. If you will let A. F. Wheeler & Co. demonstrate their claims to you, there will be no question about your buying a Buck's Hot Blast.
